This report finds that, despite being the global leaders in open data today, these governments still have a long way to go to move from promise to progress on open data implementation and impact. For the open government data movement to not only survive but thrive, governments need to radically change their approach to open data and focus their efforts on data governance.

In this chapter we discuss implications of new knowledge about learning for the design of learning environments, especially schools. Learning theory does not provide a simple recipe for designing effective learning environments; similarly, physics constrains but does not dictate how to build a bridge (e.g., Simon, 1969).

Abstract. XML Schema: Datatypes is part 2 of the specification of the XML Schema language. It defines facilities for defining datatypes to be used in XML Schemas as well as other XML specifications. The datatype language, which is itself represented in XML 1.0, provides a superset of the capabilities found in XML 1.0 document type definitions (DTDs) for specifying datatypes on elements and ...
