Forensic Science Blood Basics Notes Answer Key

Game . Use your notes and what you learned about blood transfusions to complete the game. Directions: 1 - Drag the syringe to the patient's arm (near the elbow) to draw blood and then hold it over each test tube. Use the reactions to determine the blood type. 2 - Decide which bags of blood the patient can receive and then drag the bags of blood to the pole to give it to the patient. Patient #1 -Man with purple hair What was his blood type?
