Note: The demonstration requires the plant to be in a dark location for 24 hours, to de-starch leaves.. During the video, students are required to take notes/observations and write down steps in their interactive notebook. It is important that students have a task related to a video, to insure that they will engage intellectually with it.

Seventh grade Lesson Photosynthesis - Plants' Greatest Gift

The virtual labs are fully interactive simulations in which students perform experiments, collect data, and answer questions to assess their understanding.

Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

Biology with Lab - Easy Peasy All-in-One High School

Please review the FAQs and contact us if you find a problem. Credits: 1 Recommended: I would consider this an easier course than the "core" science courses. Course Description: Students will study oceanography as a science from many different aspects. Chemical, physical, and geological oceanography will be explored. Students will study not only the ocean...
