BioCoach Activity Concept 1: Basic Plant Structure. Plants have three vegetative organs: roots, stems, and leaves. Use information from the illustration to answer the questions below.

Pearson - The Biology Place - Prentice Hall

However, most plants are monoecious, meaning that individuals have both female and male structures. In flowering plants, these structures can be borne together in a single bisexual flower, or the flowers can be only male (staminate) or only female (pistillate). Many of the most iconic flowers,

such as roses, lilies, and tulips, are bisexual, and the female pistil is characteristically ...
