Note: But, before we begin looking at it, first of all, we repeat again and again: do not blindly believe anything or merely take in on faith. What is said here is just a particular way to look at things, but it does not imply that you are forced to agree with anything said here, or anywhere for that matter.

Intelligent design (ID) is a pseudoscientific argument for the existence of God, presented by its proponents as "an evidence-based scientific theory about life's origins". Proponents claim that "certain features of the universe and of living things are best explained by an intelligent cause, not an undirected process such as natural selection." ID is a form of creationism that lacks empirical ...
