Are humans simply the by-product of evolution from an ape-like ancestor or were they lovingly fashioned by God in His own image?

Human Evolution | Answers in Genesis

Evolution is a scientific theory used by biologists. It explains how living things change over a long time, and how they have come to be the way they are.. Earth is very old. By studying the layers of rock, we can find out about its past. That kind of research is called historical geology.. We know that living things have changed over time, because we can see their remains in the rocks.
