Copying formulas with the fill handle. Formulas can also be copied to adjacent cells with the fill handle, which can save a lot of time and effort if you need to perform the same calculation multiple times in a worksheet. The fill handle is the small square at the bottom-right corner of the selected cell(s).. Select the cell containing the formula you want to copy.

Tonya Skinner's Business Education Lesson Plans and Resources

@Duncan frankly speaking, I'm confused and it's hard "to judge". I've accepted alex's answer more than 2 years ago (Q and A both on May 14), and then Mark answered suggesting a tricky workaround (I actually didn't check it) that surprisingly scored more points at my question that surprisingly became popular as well.
