The expansion of our wealth is only possible so long as the oil supply continues to expand, says oil expert Dr. Colin Campbell. The financial and investment community is beginning to accept the reality of Peak Oil, which ends the First Half of the Age of Oil, during which banks created capital by lending more than they had on deposit, being confident that tomorrow's expansion, fueled by cheap ...

WOA! - Economics, Growth, Disparity of Wealth

The green economy is defined as an economy that aims at reducing environmental risks and ecological scarcities, and that aims for sustainable development without degrading the environment. It is closely related with ecological economics, but has a more politically applied focus. The 2011 UNEP Green Economy Report argues "that to be green, an economy must not only be efficient, but also fair.
