Evolution 101 quiz (practice) | Evolution | Khan Academy

Charles Robert Darwin was a naturalist and biologist known for his theory of evolution and the process of natural selection. This theory states that all species of organisms arise and develop through the natural selection of small, inherited variations that increase the individual's ability to compete, survive, and reproduce. The quiz will basically be based on Darwin's theory of natural ...

Quiz Theory Of Evolution - ProProfs Quiz

There is a claim that those who do not believe in evolution have that viewpoint because they do not understand it. Based on some of the questions posted here, I think there is some evidence for that, so I would like to see whether the creationists on this forum have a basic understanding of evolution. Thanks for your answers: True or false: 1) According to evolutionists, Humans evolved from apes?

Evolution Quiz for creationists? | Yahoo Answers

The theory of evolution describes how life on earth developed, beginning 3.5 billion years ago. After random mutations occurred in genes, the environment selected the new genes which were most efficient in a process commonly known as "survival of the fittest". Through this natural selection, new species evolved.
