Environmental ethics is the discipline in philosophy that studies the moral relationship of human beings to, and also the value and moral status of, the environment and its non-human contents.

### **Environmental Ethics (Stanford Encyclopedia of Philosophy)**

An investigation is a project where the problem, or answer to a question, is solved. When undertaking an investigation, a method is followed that allows for the testing of an idea, or finding a solution to a problem, which determines a clear conclusion to the problem or question asked.
