Capillary Circulation in Fish - Lodi

Original Document - Observation of a Living Fish I usually get a couple dozen fish at the beginning of the year and keep in a large tank, these fish are used for this lab and for the fish respiration lab. Goldfish are cheap but they can be difficult to care for in the long term, make sure you have a filter on your aquarium to remove ammonia - this is the most common cause for goldfish death.

Students observe live goldfish under a microscope to look at the blood vessels and circulation in the fish's tail. Students learn the difference between types of blood vessels, how the blood ...

Fish Circulation Activity

Abstract---> In this lab of "fishing" out random goldfish, we looked at the allele frequencies in a population and how they can differ and change. This lab helped me understand the concept of the Hardy-Weinberg Law. This law states that the frequency of the possible diploid combinations of these alleles are shown by the equation $p^2 + 2pq + q^2 = 1$. . Hardy also said that if five conditions are ...
