A flowchart is a blueprint that pictorially represents the algorithm and its steps. The steps of a flowchart do not have a specific size and shape rather it is designed in different shapes and sizes (see the image given below). As shown in the above image, the boxes in different shapes and ...

Basics of Computer Science Algorithm Flowchart

The same old arrows and lines can get boring. To make your flowchart much more interesting, try getting creative with your paths. This chart is a great example of this; the arrows are free-flowing and weave around and over each other, creating a unique vibe. Moreover, the arrows serve a functional purpose: They guide the eye more freely toward their destinations.
