I. INTRODUCTION. A. Why do we need a Model Training Program? The Occupational Safety and Health Administration's (OSHA) Hazard Communication Standard (HCS) is designed to protect against chemical source illnesses and injuries by ensuring that employers and employees are provided with sufficient information to recognize chemical hazards and take appropriate protective measures.

Auntie Psychiatry says: October 27th 2018 SPB: "To boot there is a gene test which has been around for a long time which predicts the phenotype (strength of enzymes) but nobody in the UK gets this test and few know about it." I've been trying to dig into this - it seems that public awareness in the US is much more advanced, and the American Psychiatric Association is clearly getting nervous.
