Critical thinking skills are very important in the nursing field because they are what you use to prioritize and make key decisions that can save lives. Nurses give critical care 24/7, so the critical thinking skills of nurses can really mean the difference between someone living or dying. These types of skills are important not just for clinical care, but for making important policy decisions.

For long-term success in school, business and life, learning HOW to think is far more important than learning WHAT to think.. Yet rather than serve as the core of any education worthy of a rational human being, we have relegated the teaching of logic, argument analysis and critical reasoning to specialty courses in universities that reach too few students, too late in their education.
