Anagenesis is the gradual evolution of a species that continues to exist as an interbreeding population. This contrasts with cladogenesis, which occurs when there is branching or splitting, leading to two or more lineages and resulting in separate species. Anagenesis does not always lead to the formation of a new species from an ancestral species. When speciation does occur as different ...

We now have the official NOAA-NASA report that 2015 was the warmest year by far in the surface thermometer record. John and I predicted this would be the case fully 7 months ago, when we called 2015 as the winner.. In contrast, our satellite analysis has 2015 only third warmest which has also been widely reported for weeks now. I understand that the RSS satellite analysis has it 4th warmest.

On that 2015 Record Warmest Claim « Roy Spencer, PhD

Climate change denial, or global warming denial, is part of the global warming controversy. It involves denial, dismissal, or unwarranted doubt that contradicts the scientific opinion on climate change, including the extent to which it is caused by humans, its impacts on nature and human society, or the potential of adaptation to global warming by human actions.

Climate change denial - Wikipedia

Three Jewish men, Shadrach, Meshach, and Abednego, chose to follow their consciences, standing up against the king and his edict. Thus began a standoff that remains famous even to this day (see Daniel 3).. Unfortunately, we are seeing the same situation repeating itself today.
