Electronic harassment, electromagnetic torture or psychotronic torture is a conspiracy theory that government agents make use of electromagnetic radiation (such as the microwave auditory effect), radar, and surveillance techniques to transmit sounds and thoughts into people's heads, affect people's bodies, and harass people. Individuals who claim to experience this call themselves "targeted ...

## **Electronic harassment - Wikipedia**

In mechanical systems, resonance is a phenomenon that only occurs when the frequency at which a force is periodically applied is equal or nearly equal to one of the natural frequencies of the system on which it acts. This causes the system to oscillate with larger amplitude than when the force is applied at other frequencies.. Frequencies at which the response amplitude is a relative maximum ...

Ferromagnetism is a kind of magnetism that is associated with iron, cobalt, nickel, and some alloys or compounds containing one or more of these elements. It also occurs in gadolinium and a few other rare-earth elements. In contrast to other substances, ferromagnetic materials are magnetized easily, and in strong magnetic fields the magnetization approaches a definite limit called saturation.
