The creation-evolution controversy (also termed the creation vs. evolution debate or the origins debate) involves an ongoing, recurring cultural, political, and theological dispute about the origins of the Earth, of humanity, and of other life. Creationism was once widely believed to be true, but since the mid-19th century evolution by natural selection has been established as an empirical ...

Creation-evolution controversy - Wikipedia

Objections to evolution have been raised since evolutionary ideas came to prominence in the 19th century. When Charles Darwin published his 1859 book *On the Origin of Species*, his theory of evolution (the idea that species arose through descent with modification from a single common ancestor in a process driven by natural selection) initially met opposition from scientists with different ...

Objections to evolution - Wikipedia

Early Modern Homo sapiens. All people today are classified as Homo sapiens. Our species of humans first began to evolve nearly 200,000 years ago in association with technologies not unlike those of the early Neandertals. It is now clear that early Homo sapiens, or modern humans, did not come after the Neandertals but were their contemporaries.

Evolution of Modern Humans: Early Modern Homo sapiens

Science or Faith? Which is right? Can you be a scientist and also a Christian? Can you learn from both? Are science and faith always in conflict?
