In this lesson, we'll be reviewing the major parts of frog anatomy, including the external and internal structures you would expect to see during a dissection.

Frog Anatomy: External & Internal - Video & Lesson ...

A frog is any member of a diverse and largely carnivorous group of short-bodied, tailless amphibians composing the order Anura (literally without tail in Ancient Greek). The oldest fossil "proto-frog" appeared in the early Triassic of Madagascar, but molecular clock dating suggests their origins may extend further back to the Permian, 265 million years ago.. Frogs are widely distributed ...

My Father's World offers evolution-free science curriculum for 7th-12th grade including textbooks with accompanying lesson plans and multimedia resources.

Homeschool Science Curriculum - My Father's World

Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

School and public libraries have much more than informational resources available to youth. Whether you're addressing specific curriculum standards for a health unit or designing informal learning activities for a Saturday crafts club, electronic materials are available to facilitate learning.

Electronic Materials for Children and Young Adults

From the ancient Egyptian mummifications to 18th century scientific research on "globules" and neurons, there is evidence of neuroscience practice throughout the early periods of history. The early civilizations lacked adequate means to obtain knowledge about the human brain. Their assumptions about the inner workings of the mind, therefore, were not accurate.

Observation of the Week, 5/3/19. Our Observation of the Week is this ovipositing Atanycolus wasp, seen in Russia by ropro!. In my experience, most people associate the word "wasp" with members of the Vespidae family, such as hornets and paper wasps. And for good reason, as many of them are large, colorful, often found around humans, and can deliver a painful sting.
