The 10 Priorities provide the concrete actions that are needed to achieve the objectives of the WHO Global strategy and action plan on ageing and health. Each priority is crucial to enable the world to take on a decade of concerted action on Healthy Ageing (2020-2030). Many are inextricably linked and all will require collaboration with many key partners.

WHAT IS TELEPHONE TRIAGE? Telephone triage is a complex process by which trained clinicians identify a patient's problem, estimate the level of urgency, and render advice to the patient over the phone (Huibers et al., 2011). Telephone triage, however, does not involve making diagnoses—nursing or medical—by phone (Lephrohon & Patel, 1995; Perrin & Goodman, 1978).

Stratum Basale. The stratum basale (also called the stratum germinativum) is the deepest epidermal layer and attaches the epidermis to the basal lamina, below which lie the layers of the dermis. The cells in the stratum basale bond to the dermis via intertwining collagen fibers, referred to as the basement membrane. A finger-like projection, or fold, known as the dermal papilla (plural ...

Well, I'm very grateful to Marie Curie for funding our project, which is about unpacking the home. Now, as you know, that the policy initiative at the moment is to enable people to die at home if they choose, and what we're going to be looking at is the impact on family caregivers, because they're there all the way through the experience and, of course, into bereavement.
