Nanocellulose is often being regarded as the next generation renewable reinforcement for the production of high performance biocomposites. This feature article reviews the various nanocellulose reinforced polymer composites reported in literature and discusses the potential of nanocellulose as reinforcement for the production of renewable high performance polymer nanocomposites.

On the use of nanocellulose as reinforcement in polymer ...

The Renewable Energy Sources Act or EEG (German: Erneuerbare-Energien-Gesetz) is a series of German laws that originally provided a feed-in tariff (FIT) scheme to encourage the generation of renewable electricity. The EEG 2014 specified the transition to an auction system for most technologies which has been finished with the current version EEG 2017. ...

German Renewable Energy Sources Act - Wikipedia

Truckcell™ is a thick heavy-duty porous paver manufactured from 100% recycled plastic and is strong enough to withstand trafficking from vehicles with high wheel loadings such as trucks, buses, fire appliances and refuse vehicles.

Truckcell Heavy-Duty Porous Paver - ABG Geosynthetics

The Association for Academic Surgery is widely recognized as an inclusive surgical organization. The impetus of the membership remains research-based academic surgery, and to promote the shared vision of research and academic pursuits through the exchange of ideas between senior surgical residents, junior faculty and established academic surgical professors.

Journal of Surgical Research Home Page

Seasonal thermal energy storage (or STES) is the storage of heat or cold for periods of up to several months. The thermal energy can be collected whenever it is available and be used whenever needed, such as in the opposing season.

Seasonal thermal energy storage - Wikipedia

With over 500,000 users downloading 3 million documents per month, the WBDG is the only web-based portal providing government and industry practitioners with one-stop access to current information on a wide range of building-related guidance, criteria and technology from a 'whole buildings' perspective.

Solbian High Power Flexible Solar Panels for boats, yachts, marine applications, RV's; the highest efficiency, lightest, flexible solar panels

High Power Flexible Solar Panels from Solbian for boats ...

Fibroblasts are the most common resident cells in ordinary connective tissue. Fibroblasts are responsible for secreting collagen and other elements of the extracellular matrix of connective tissue. In microscopic appearance, fibroblasts lack obvious specialized features. And fibroblasts throughout the body all appear similar to one another, wherever they occur in ordinary connective tissues.
