Parents: Monitor the amount of time and the time of day your children spend playing video games and using technology. Caution: Technology use can have negative affects on the body, and may affect sleep and concentration. Dunckley (2011) indicated when video games and electronic devices are used in the dark, the unnatural brightness of the screen inhibits the body from producing melatonin, the ...

A primary school (or elementary school in American English and often in Canadian English) is a school for children from about five to eleven years old, in which they receive primary or elementary education. It can refer to both the physical structure (buildings) and the organisation. Typically it comes after preschool, and before secondary school. [citation needed]
