Endocrine System Exhibition Stations by Biology Roots | TpT

The term "endocrine" implies secretion into the internal milieu of a multicellular organism. In contrast to exocrine tissues, where the secretory products are discharged into the external space - the outer surface of the body, mucosal surfaces, duct systems - the endocrine organs and cells secrete their products into the vascular system.

Histology - Yale University

Autoimmune conditions are characterized by the presence of autoantibodies. It's no exception with Graves' disease and Hashimoto's thyroiditis. While most endocrinologists focus on improving the

thyroid panel (TSH and thyroid hormones), very few conventional medical doctors will do anything to improve the health of the person's immune system, and thus normalize thyroid antibodies.

How To Lower Thyroid Antibodies | Natural Endocrine Solutions
