Midterm Study Guide (Portfolio Management) A type of investment in which the payoff depends on the difference in performance between two indexes or other financial assets. The payoff from the option is governed by the change in the spread between the indexes or assets. These options are generally settled in cash. does not depend on market direction, rather a change in spread.

Midterm Study Guide (Portfolio Management) Flashcards ...

Our experts believe the outcome of US midterm elections is not likely to affect the US economic outlook. Historically, the U.S. stock market has generally performed well in the year after midterm elections, however, the new Congress may consider issues that could affect market volatility.
