UNIT - I. Interference of Light: Interference due to division of wavefront and division of amplitude, Young's double slit expt., Interference, Principle of Superposition, Theory of Biprism, Interference from parallel thin films, wedge shaped films, Newton rings, Michelson interferometer. Diffraction: Fresnel Diffraction, Diffraction at a straight edge, Fraunhofer diffraction due to N slits ...

ELECTRICAL & ELECTRONICS ENGINEERING

Q. What is the difference between a detector tube and a dosimeter tube?: A. Both detector tubes and dosimeter tubes contain a color-changing material that is specific for the chemical or family of chemicals that it is designed for and will generally have a graduated scale to display the concentration of the vapor.

Safety Questions and Answers - Grainger Industrial Supply

The history of computing hardware covers the developments from early simple devices to aid calculation to modern day computers. Before the 20th century, most calculations were done by humans. Early mechanical tools to help humans with digital calculations, like the abacus, were called "calculating machines", called by proprietary names, or referred to as calculators.

In December 1955 the Social Security Administration published a 16-page illustrated explanation of the procedures it used to maintain Social Security records on the nation's covered workers.

Social Security History

Byte: Today, a byte is almost always 8 bit. However, that wasn't always the case and there's no "standard" or something that dictates this. Since 8 bits is a convenient number to work with it became the de facto standard. Word: The natural size with which a processor is handling data (the register size). The most common word sizes encountered today are 8, 16, 32 and 64 bits, but other sizes are ...

Fideisms Judaism is the Semitic monotheistic fideist religion based on the Old Testament's (1000-600 BCE) rules for the worship of Yahweh by his chosen people, the children of Abraham's son Isaac (c1800 BCE).. Zoroastrianism is the Persian monotheistic fideist religion founded by Zarathustra (c628-c551 BCE) and which teaches that good must be chosen over evil in order to achieve salvation.

Human Knowledge: Foundations and Limits

I am using Sql server 2012(Denali). I wonder why all identity column values start from 1001 and so on. At the beginning Identity column starts from 1,2 and so on and adding identity smoothly, but suddenly it jumps to 1001,1002 and onwards for all the table in the database containing identity column. What could be the reason?

Identity column value suddenly jumps to 1001 in sql server ...

As you know, the advantage that the passphrase gives you is that if someone is able to read your private key, they are 'unable' to use it. If someone is able to access that private key, you should take it for granted that they have access(ed)/compromised whatever machines are set up with the public key.
