Solving Quadratic Equations By Factoring Maze Answers ...

Factor Maze Puzzle Instructions: Start at the top left hand corner, and solve the maze by factoring every polynomial you come across. Write the factorization under the polynomial for easy reference. You can only move one square up, down, left, or right when it SHARES a factor with the current square. You have solved the maze when you exit at ...

Puzzles: Factor Maze - easyworksheet.com

Factoring Maze Instructions: Start at the top left hand corner, and solve the maze by factoring every polynomial you come across. Write the factorization under the polynomial for easy reference. You can only move one square up, down, left, or right when it SHARES a factor with the current square.

Factoring Maze - cpb-us-e1.wpmucdn.com

Factoring Maze Instructions: Start out the maze by factoring every polynomial. Write the binomial factors under the polynomial for easy reference. After you've finished factoring, find the path from the start to the end by moving one space up, down, left, or right when the adjacent square shares a factor with the current square. Ex: You may move

This page will try to solve a quadratic equation by factoring it first. How does this work? Well, suppose you have a quadratic equation that can be factored, like $x^2 + 5x + 6 = 0$. This can be factored into $(x+2)(x+3) = 0$. So the solutions must be $x = -2$ and $x = -3$. Note that if your quadratic equation cannot be factored, then this method will not work.

Solve a Quadratic Equation by Factoring - WebMath

Factoring Maze Instructions: Please start in the upper left box. Solve the maze by factoring every polynomial. Write the factored binomials under the polynomial for easy reference. You will move one space up, down, left, or right when it has the same factor as the current square. You finish the maze when you reach the exit.
