Five Economic Concepts Consumers Need to Know - Investopedia

The study of economics is the study of choices. How should a society choose to allocate and distribute its resources? Which needs should have the highest priority, and which are less important? Economists study how people use their limited resources in an attempt to satisfy their unlimited wants. They create scientific models to explain why people behave the way they do, and

Economics | UC Davis

Marshall's definition of economics remained an article of faith with all economists from 1830 to 1932. However, with the publication of Robbins book "Nature and Significance of Economic Science" 1932, there developed a fresh controversy in regard to the definition of economics.
