Welcome to your third Genetics Workshop. Here we will go slowly and systematically through the steps needed to do chi-square analysis. This Workshop is divided into three different problems and a summary of general ideas.

### **Genetics Workshop Number Three. : The Chi-Square.**

The relationship between race and genetics is relevant to the controversy concerning race classification. In everyday life, many societies classify populations into groups based on phenotypical traits and impressions of probable geographic ancestry and cultural identity—these are the groups usually called "races" in countries like the United States, Brazil, and South Africa.

Did we all come from Adam and Eve like the Bible clearly states, or has the human species outgrown Adam and Eve? A recent article from The Economist covers the debate about whether all humans could have really come from just two people. It reports that at the November 2013 meeting of the Evangelical Theological Society in Baltimore, Maryland, a presentation about the latest in human genetics ...

Evidence of common descent of living organisms has been discovered by scientists researching in a variety of disciplines over many decades, demonstrating that all life on Earth comes from a single ancestor. This forms an important part of the evidence on which evolutionary theory rests, demonstrates that evolution does occur, and illustrates the processes that created Earth's biodiversity.
