Problem Set 1 Solutions Point totals are in the margin; the maximum total number of points was 52. You should use these solutions as a rough guide to the level of detail expected in your own solutions. 1. Testing commutativity in groups (a) Note first that some generator  $g_i$  must lie outside  $H$ , since  $H$  is a proper subgroup. So let  $i$  be the 5pts
