Astigmatism occurs when light is bent differently depending on where it strikes the cornea and passes through the eyeball. The cornea of a normal eye is curved like a basketball, with the same degree of roundness in all areas. An eye with astigmatism has a cornea that is curved more like a football, with some areas that are steeper or more rounded than others.

Facts About Astigmatism | National Eye Institute

In my (extensive) experience, the number 1 cause for mysteriously blurred vision in one eye in a female child this age is "making it up". And I cannot tell you how many times I have been assured that this would be totally out of character for the child.
