No study of ecology is complete without comprehensive lessons on food chains, food webs, and energy pyramids. This 9-page activity will ensure that your biology or life science students master these important concepts in ecology. Perfect for students in grades 6 - 10. What is included in this pro...

# Food Chains and Food Webs Activity - Teachers Pay Teachers

FOOD WEB DEFINITION. To understand how plants and animals interact, scientists make diagrams called food chains. A food chain shows a sequence of living things in which one organism eats the one below it. Most animals eat more than one thing, so to show ALL the feeding relationships, we use food webs which are made of many intersecting food chains.
