Top: Noam Chomsky, the famed social critic and linguist whose theory of Universal Grammar suggests (to put it simply) that all humans have the innate ability to learn language. Bottom: Jean Berko Gleason, noted psycholinguist famous for her development of the "Wug Test" (seen here with a wug on each shoulder) which used nonsense words to gauge whether children could apply the correct ...

We would love to detroit, and we might do some content with Conner , but as the game's hype as died down , and that we dont have a full cast, we feel a little discouraged to make much content for it as it is right now.. Hopefully we can sometime soon, but i can't make any promises, and with us working really hard on our upcoming con season outfits, i dont see us having much time for it ...

After reading the excellent Molly Lambert you tweeted something occurred to me. Is it not a shade hypocritical for some porn production companies to complain about tube sites, and by extension piracy, when so many companies make parodies of films or T.V shows which themselves are intellectual property?

I spent Saturday afternoon playing with Spring Cloud Functions.. What's interesting about this is that it's both provider agnostic (run it on AWS Lambda, or a couple self hosted ones, including one that sits on top of Kubernetes) and agnostic about how you trigger the endpoints. By that I mean you can set up the endpoints to be triggered by HTTP, or triggered as part of a "stream ...

I was reminded by this story that we are not born into this world with an automatic understanding of the culture of scarcity.Quite the opposite: children usually assume that they live in a culture of abundance where anything is possible and everything they desire is available.. Nine year old Martha Payne clearly understands how it should be.

Space Jam. Okay, so this isn't really a novelization. The title page calls it a storybook, which is sort of redundant. I was at Goodwill a few weeks ago, looking for shitty novelizations, like you do, when I came across Space Jam. Typically, I don't bother with books like this, but I also kinda want to occasionally make a shorter post about some of the other shitty book versions of movies ...

We live in a world of alternate universes. We may say we live in the present, but in reality the way our brains think traps us in the past. We've been so conditioned by society to predict our own futures (career, love, life in general) that the only concrete evidence we can use to judge what is yet to come is what has already happened.
